Verification & Reliability of Dependable Systems Introduction to the course and exam procedures

Barbara Russo SwSE - Software and Systems Engineering

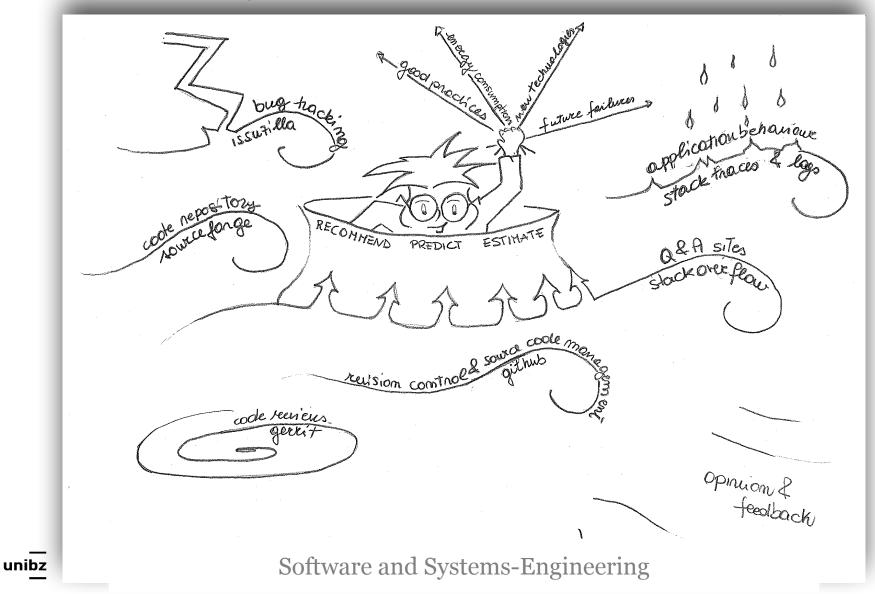

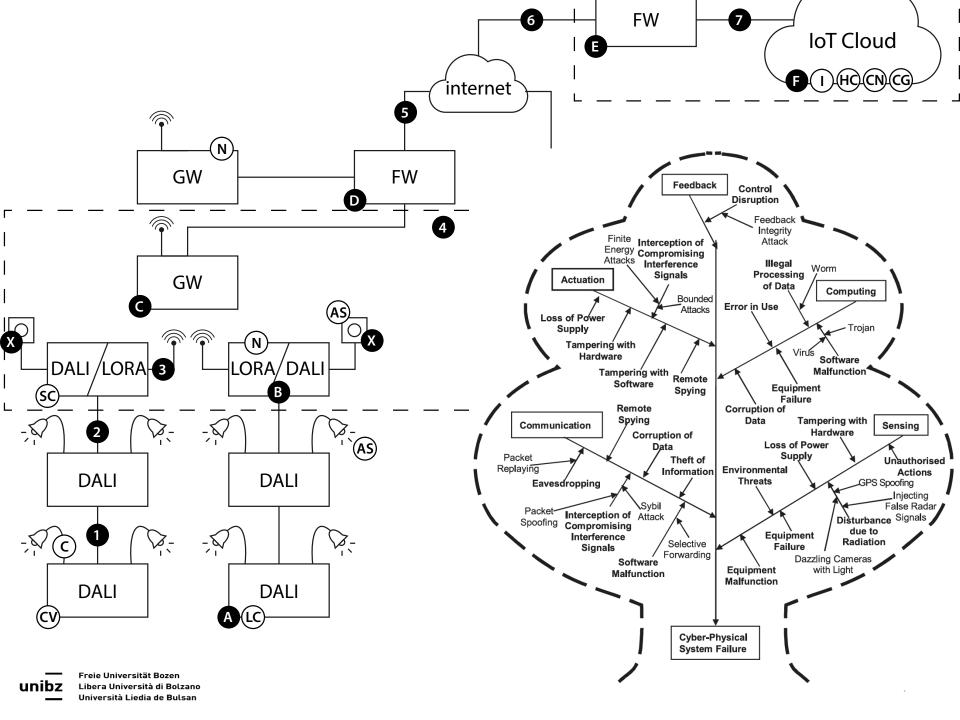

Course instructors

- Barbara Russo (Lectures)
- Matteo Camilli (Lab)

About my research

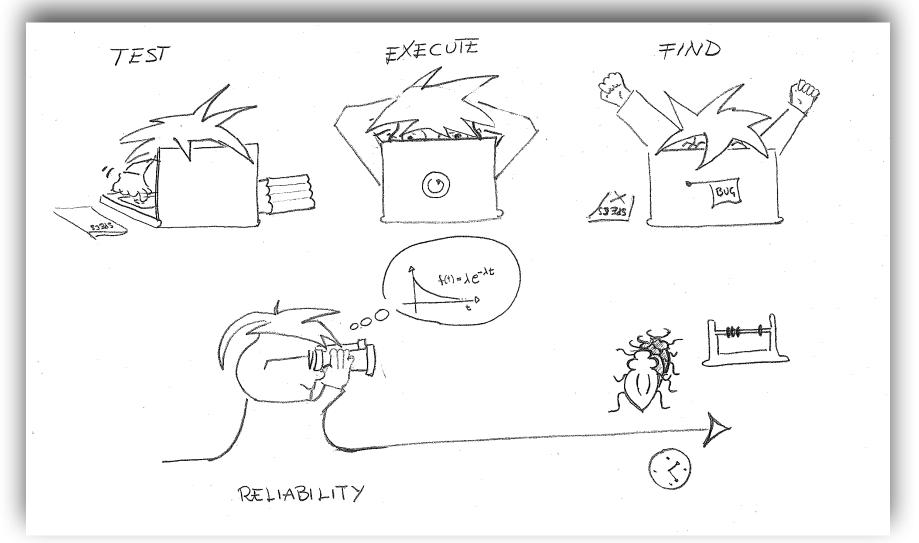

Research topics - system level

- System Behavioural analysis
 - Log mining
 - Identify system behaviour through log mining
 - Pattern recognition and recommendations in system (mis-)behaviour
- System performance and scalability
 - Load testing with or w/o attacks
 - Performance and scalability anti-patterns
- Attacks, Testing, Technical debt
 - Software / Systems
 - Cyber Physical Systems

Research topics - code level

- Code of low quality
 - Feature back-porting
 - Identify code that smells now but worked in the past
 - (SA-)Technical debt and relation to code quality
- Motifs evolution to recommend refactoring
 - Evolution micro-architectures (motifs) (as in biological networks) to predict architectural refactoring
- Weaknesses, Vulnerability, attacks
 - MITRE repository mining
 - Recommend code and patches for weak code

About this course

My office hours

- Office hours: Tuesdays 14:00 16:00
- Send an email for appointment

Exam and assessment

- Exam
 - Project at lab with incremental assignments
 - Written exam

- Assessment:
 - Lab (50%) written exam (50%)

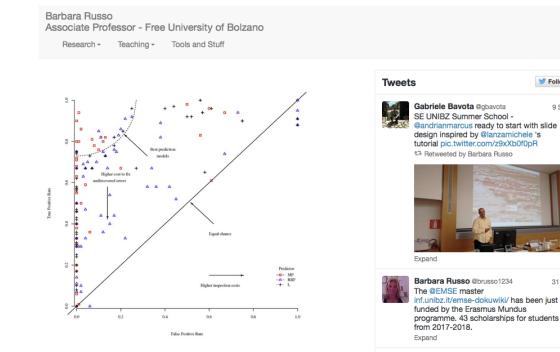

Assessment

- To access to the written exam, you must have passed the project work with **18 or greater**
- In case the project work is positive, the project grade is kept for all three regular exam sessions (July, October, February)

Resources

• Notes of the course, books and references in the public web site: <u>http://www.inf.unibz.it/~russo/</u>

I am associate professor at the Faculty of Computer Science of the Free University of Bozen-Bolzano, Italy, I was visiting researcher at the Max-Planck Institut für Mathematik in Bonn, Cormony and Mario Cyric follow at the University of Liverneel, United King

Barbara Russo @brusso1234 28 Jul @MathJobs1 Position: Free University of Bozen-Bolzano, Italy, professorship in Probability and Statistics. Info: hiringCS@unibz it
