EVALUATION OF COURSES

Degree: Applied Computer Science NEW

Prof. Augsten Nikolaus
Course: 70188 Approximation: Theory and Algorithms (S)

July 2009, 2nd Semester
Academic year 2008/2009
This report presents the results of the evaluation of the courses held at the Free University of Bolzano-Bozen during the 2008/2009 academic year (2nd Semester). The students were asked to express their opinion on the courses.

The graphs compare the results for each analysed course (70188 Approximation: Theory and Algorithms (S), prof. Augsten Nikolaus) with the total for all the courses of the degree held during the same period.
Organisation

Is the subject work load in the time period stated above generally acceptable?

Is the organisation (timetable, half term and final exams) generally acceptable?
Organisation of this course

Has exam procedure been explained clearly?

Has the subject timetable been respected?
Are teaching staff available for explanations and clarification?

Is the language used on the course by the teacher comprehensible?
Is the length of the course well balanced?
**Didactic activity and study**

Was my preliminary knowledge sufficient / adequate in understanding the subject?

![Bar chart showing the percentage of students who found their preliminary knowledge sufficient/adequate.]

Does the teacher stimulate / motivate interest in the subject?

![Bar chart showing the percentage of students who feel their teacher stimulates/motivates interest.]

- 7 -
Does the teacher explain the subject clearly?

Is the study load in this subject proportionate to the credits awarded?
Is the didactic material (recommended or supplied) adequate for subject study?

Are the supplementary didactic exercises (exercises, laboratory, seminars etc...) constructive in subject learning? (if supplementary didactive activities are not part of the course, reply “not included”)
Is the course well structured?

Are the examples given to support theory adequate?
Is the course level adequate?

Does the teacher display teaching ability?
Is the teacher open to discussion and does he / she answer questions?

Is the general assessment of the teacher / instructor positive?
Infrastructure

Are the teaching rooms for this course adequate? (blackboard visibility, seating, acoustics)

Are the rooms and equipment for the supplementary didactic activities adequate? (exercises, labors, seminars, ...) If there are no additional didactic activities planned, answer with „not included“)
Interest and Satisfaction

Am I interested in the subject? (regardless of teaching method)

Am I generally satisfied with the teaching of the subject?
Student participation

How regularly did you attend the course lessons?

![Bar chart showing student participation attendance rates. The chart compares individual courses (n=3) with the total degree (n=334). The attendance rates range from 0% to 100%, with percentages for each level indicated. The chart illustrates varying levels of attendance across different categories.]
How regularly did you attend the practical sessions?
