INTERNATIONAL WORKSHOP
ON DESCRIPTION LOGICS

DL'97

Gif sur Yvette, September 27-29 1997

Marie-Christine Rousset, Ron Brachman, Francesco Donini,
Enrico Franconi, Ian Horrocks, Alon Levy (Eds)

Université PARIS-SUD
Centre d'Orsay

Laboratoire de Recherche en Informatique (LRI)
Unité de Recherche Associée CNRS (URA 410)
International Workshop on Description Logics

DL'97

Gif sur Yvette, September 27-29, 1997

Marie-Christine Rousset
LRI, CNRS & University of Paris-Sud
Building 490, 91405 Orsay Cedex, France
mcr@lri.lri.fr

Ron Brachman
AT&T Laboratories,
180 Park Avenue, Florham Park, NJ, 07932, USA
rjb@research.att.com

Francesco Donini
Dipartimento di Informatica e Sistemistica
University of Roma "La Sapienza",
Via Salaria 113, I-00198 Roma, Italy
donini@dis.uniroma1.it

Enrico Franconi
Knowledge Representation and Reasoning group
Istituto per la Ricerca Scientifica e Tecnologica (IRST)
I-38050 Povo TN, Italy
franconi@irst.itc.it

Ian Horrocks
Department of Computer Science
University of Manchester,
Oxford Road, Manchester, M13 9PL, UK
horrocks@cs.man.ac.uk

Alon Levy
AT&T Laboratories,
180 Park Avenue, Florham Park, NJ, 07932, USA
levy@research.att.com
Contents

Invited Talks (Abstracts)
  Catriel Beeri
  Rick Hull  p 1

Conjunctive Query Containment in Description Logics with n-ary Relations
  Diego Calvanese, Giuseppe De Giacomo, Maurizio Lenzerini  p 5

Characterizing the semantics of terminological cycles with the help of finite automata
  Ralf Küsters  p 10

Defined Topological Relations in Description Logics
  Carsten Lutz, Ralf Möller  p 15

Least Common Subsumption as a connective
  Véronique Ventos, Pierre Brezellec  p 20

Description Logics with Transitive Roles
  Ian Horrocks, Graham Gough  p 25

Description Logics with Aggregates and Concrete Domains
  Franz Baader, Ulrike Sattler  p 29

Unification of Concept Terms in Description Logics
  Franz Baader and Paliath Narendran  p 34

Description Logic-based Framework for Planning with Sensing Actions
  Giuseppe De Giacomo, Luca Iocchi, Daniele Nardi, Riccardo Rosati  p 39

A Description Logic for reasoning with behavioural knowledge
  Ernesto Compatengenlo, Francesco Donini, Giovanni Rumolo  p 44

Classifying Description Logics
  Natasha Kurtonina, Maarten de Rijke  p 49

Applying DL in Automatic Dialogue Interpreting
  Uwe Küßner  p 54

Classification Rule for Semi-Structured Data
  D. Michaeli, W. Nutt, Y. Sagiv  p 59

Use of Description Logics for shallow information analysis for texts
  Nicolas Capponi  p 65

Software Asset Classification and Retrieval with Description Logic:
the Intelligent Reuse Assistant
  Enrico Franconi  p 70

Spatioterminological Reasoning: Subsumption Based on Geometrical Inferences
  Volker Haarslev, Ralf Moeller  p 74

optimization and Parameters in FLEX++
  Frank Bergmann  p 79
Usability Issues in Description Logic Systems  
Deborah L. McGuinness and Peter F. Patel-Schneider  
p 84

Incremental Individual Reasoning in ProtoDL  
Alex Borgida  
p 89

Inspecting Concepts Graphically with Zoomable Lenses  
Gary Ng, Carole Goble, Adrian West  
p 94

Action Hierarchies in Description Logics  
Thorsten Liebig, Dietmar Rösner  
p 99

Classification and Case-Based Reasoning  
Amedeo Napoli, Jean Lieber, Arnaud Simon  
p 104

Preliminary Investigations into Interactive Classification in Description Logics  
Peter F. Patel-Schneider  
p 109

Study and Formalization of a Case-Based Reasoning System with a Description Logic  
Sylvie Salotti, Veronique Ventos  
p 114

Dwebic: An Intelligent Search Engine based on Default Description Logics  
Patrick Lambrin, Nahid Shamehri, Niclas Wahllof  
p 119

How far is an Object Model from DL  
Epaminondas Kapetanios, Moira Norrie, Alain Wuergler  
p 122

Using Description Logics to Drive Query Interfaces  
S. Bechofer, C.Goble  
p 127

Towards a Model Ontology for Grail  
Houria Mihoubi, Ana Simonet, Michel Simonet  
p 132

Object Persistency View Maintenance and Query optimisation in Osiris, a DL-like OODBMS  
Ana Simonet, Michel Simonet  
p 138

Discovering description logic assertions from database schemes  
A. Bonifati, L.Palopoli, D.Sacca, D.Ursino  
p 144

Experiments with the DFL Hybrid System  
Mira Balaban, Adi Eyal  
p 149

Role Hierarchies and Number Restrictions  
Hans Jürgen Ohlbach, Jana Koelher  
p 154

Interpretation of Description Logics for Natural Language and Databases  
François de Beuvron, Francois Rousselot, David Rudloff  
p 159
