

Schedule of Presentations on Tuesday/Wednesday, 19/20 October

There will be five presentations on Tuesday and five presentations on Wednesday.

Tuesday Session, F0.03, 16:00–18:00

On Tuesday, the groups supported by Lina Lubyte will present their projects.

Group 1: Sports Rental

Group 3: Google Database

Group 4: Library Cataloging

Group 5: The Calendar/Organizer

Group 9: Database for the Province

Wednesday Session, E420, 10:30–12:30

On Wednesday, the groups supported by Marius Kaminskas will present their projects.

Group 2: Airport Management Application

Group 6: Hospital Database

Group 7: Wine-store Database

Group 8: Bank Database

Group 10: Social Network Database

Instructions

Each group will have a slot of 20 minutes. During this time,

- tell us briefly what the topic of your project is,
- show us the five most important sample queries,
- show us the ER diagram.

You may want to show a simplified version of the diagram, leaving out some attributes of the entity types.

Prepare electronic slides, either in Powerpoint or PDF (I cannot guarantee at this point that Open Office will be supported by the University desktops in the lecture rooms).

Send them to your tutor, either on Tuesday, not later than 2pm, or on Wednesday, not later than 9am. Alternatively, bring them on a memory stick to the room where we hold the lab.
