

Internet Technologies

10 – Session and Beans

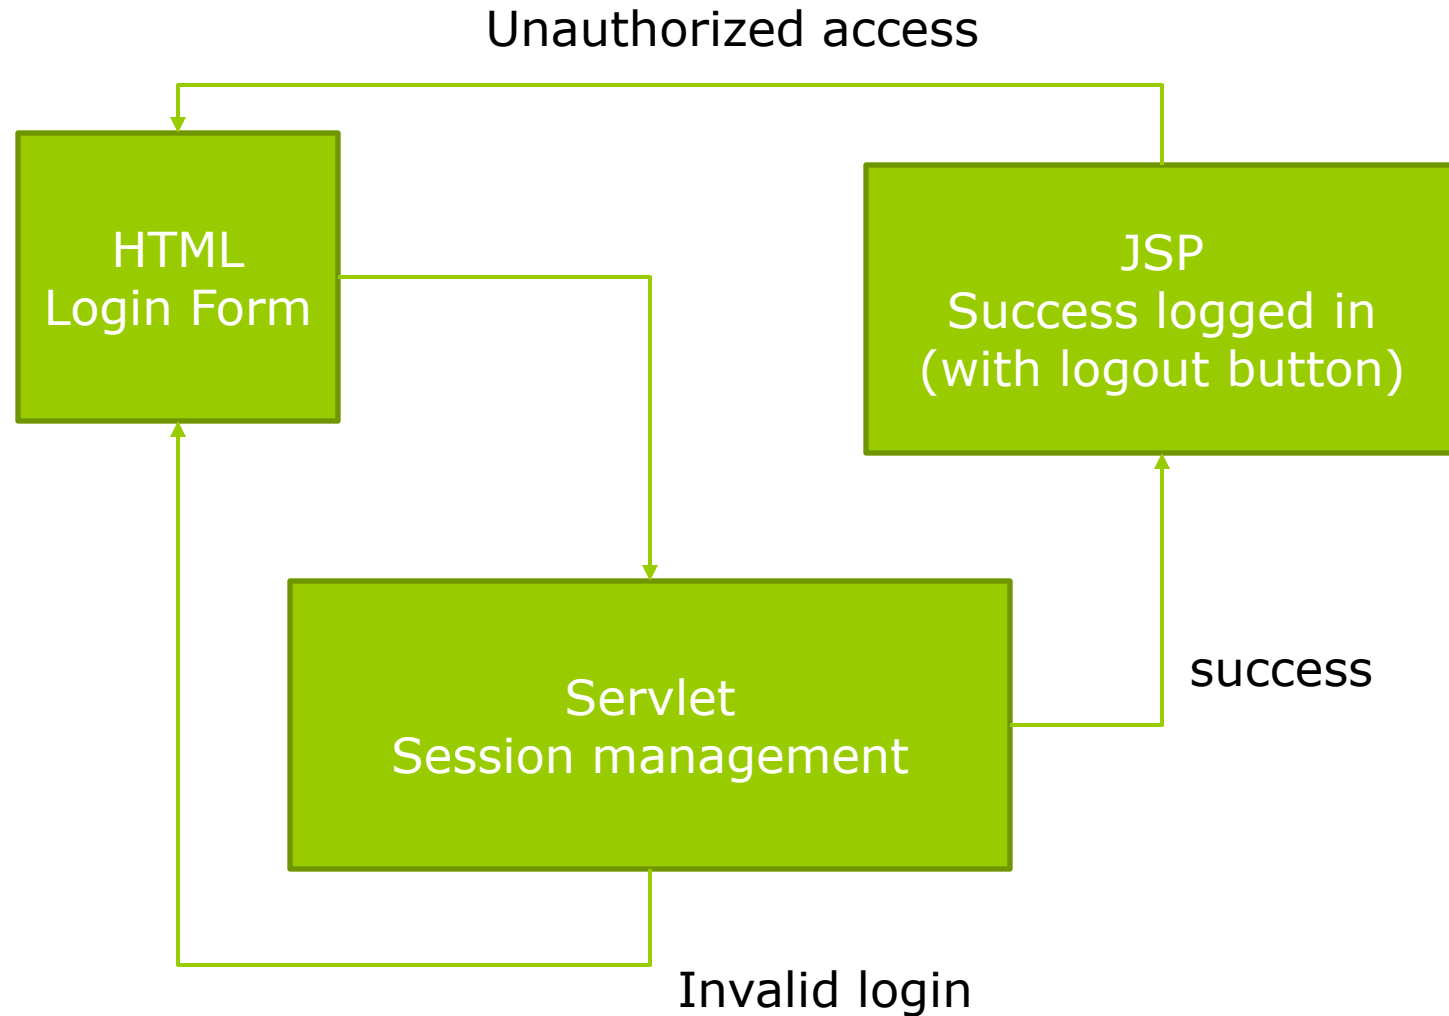

LAB 2010

Agenda I

- Login/Logout routine
 - Create login/logout HTML form
 - Create a authentication servlet
 - use session, see lecture 9
 - Redirect to JSP on success
 - Redirect to login on failure
 - Create logout on JSP
- Beans
 - In authentication servlet create user bean
 - Put this bean into the response
 - Display bean information in a JSP

Login/Logout process

User Bean

- UserModel
 - FirstName
 - LastName
 - Address
 - Steet
 - Telephone
 - Education <list of strings>

Reference Links

- Use JSTL (Java Standard Tag Libraries) to simplify bean usage in **JSP**:
