JSIS Reviewers of the Year Award – 2014

In the March 2015 issue of *JSIS*, we publicly acknowledged each of the 220 or so reviewers from 26 different countries who have contributed so willingly to the success of the journal by reviewing the articles that had been submitted to *JSIS* for consideration during the previous year. As we noted then, major journals such *JSIS* are entirely dependent on the work of our reviewers who give so freely of their time to make the journal the success it is, and who help the authors to improve their submissions – whether or not they are eventually successful in having their work published in the journal.

We now wish to congratulate the select few who are the winners of the *JSIS* Reviewers of the Year Award for 2014. Their contributions have been outstanding.
